| Date | Incident | Incident Detail | Status | | | | |
|---|---|---|---|---|---|---|---|
| 3/24/2020 | Extra sector added / removed on page refresh. | When added / removed a sector by (+, - buttons), **an extra sector is added / removed on page refresh** (F5). Possible cause: **State of a flag remains add / remove when clicked (+,- buttons) once.** | **Fail** | | | | |
| 3/30/2020 | Misplaced field warning texts. | Username and Password fields' **missing field warning are mislocated.** | **Fail** | | | | |
| 3/30/2020 | Missing login (user) button on main page. | Missing login (user) button on **upper right corner on main page.** | **Passed** | Check this in new version | | | |
| 3/30/2020 | Password field char count. | It is possible to create a password with only 1 char. | **Passed** | Password needs at least 8 chars with both letters and numbers | | | |
| 3/30/2020 | Profile dropdown need UI fixes. | "Settings" element needs to be placed in the middle a little. | **Passed** | Fixed | | | |
| 3/30/2020 | Copy button caused layout. | When Copied (FoF > Copy in csv, excel toolbar) and pasted on Word doc, the pasted layout seems confusing (**lines jump into next line by breaking the column order**). | **Fail** | | | | |
| 4/3/2020 | UI fix for Login button. | Login button could be little bigger in width and height. | **Verify** | | | | |
| 4/3/2020 | EntryNo order seems confused. | We have EntryNo's starting with 1, 4, 8, 11, 14... like unordered. | **Verify** | | | | |

| 4/3/2020 | Replacement of *Back to Main Page* link to Tables page. | It could be good to place the ***Back to Main Page link*** on the Tables (Dashboard) page for better usability. | **Verify** | | | | |
|---|---|---|---|---|---|---|---|
| 4/3/2020 | Ordering in Tables page | When switching FoF data to Balance Sheet data (Both monthly and annual), Balance Sheet data becomes descending by default | **Fail** | | | | |
| 4/5/2020 | Dashboard > Important Graphs dropdown | It could be a good idea to show selected dropdown element dynamically. | **Verify** | | | | |
| 4/5/2020 | Dashboard > Important Graphs > Portfolio Invesment (The Last one) | When clicked Portfolio Invs., it adds an extra sector to the graph. | **Fail** | | | | |
| 4/5/2020 | Dashboard > Sector dropdowns > Choose | When clicked choose element, page returns an error (out of bounds). Or we can just disable it from getting clicked. | **Passed** | disabled | | | |
| 4/5/2020 | Fofviz > Left Menu | Tables header in the left menu is not highlighted / focused when clicked. Instead, **Dashboard header remains as focused all the time.** It could be nice to keep the currently selected header focused / highlighted in bold text etc. | **Verify** | | | | |
| 4/5/2020 | Fofviz > Charts tab | Charts tab not available yet. | **Verify** | | | | |
| 4/5/2020 | Fofviz > Left Menu color change | **Background color of the left menu changes** as we click the show entries elements. | **Fail** | | | | |

| 4/5/2020 | Search field keyword remains | When made a search via search field and clicked dashboard/fofviz tab and come back to tables again, **previous search keyword remains in the search field.** | Fail | | | | |
| 8/5/2020 | html issue - Dropdown menu in main page | When mouse ever in between the dropdown and login button in the main page, dropdown freaks out. | Fail | | | | |
| 8/5/2020 | Set user password with spaces | It's possible to set/change the user password with full of spaces. | Fail | | | | |
| 8/5/2020 | A logout button in main page | We can consider putting a logout button to the main page for extra usability. | Verify | | | | |
| 8/5/2020 | Logo in the left dashboard | The logo is not fully visible when the left menu is hidden by the sidebar button. | Fail | | | | |
| 8/5/2020 | Color change in accordion sidebar (left blue bar) | When clicked on *Tables* tab in the blue area, there is a sudden but visible change in color while page loading (Blue becomes lighter for a second). | Fail | | | | |
| 11/5/2020 | Register without email address | It's possible to register without an email address. When tried to register another account without email, it prompts "this email already exists" message. | Fail | | | | |
| 11/5/2020 | Register with a single char password | It's possible to register with a single char password. | Fail | | | | |
| 11/5/2020 | Register > **Warning messages are not dynamic** | Warning messages could be dynamic (The message disappears as soon as deleted the wrong input in the fields). | Verify | | | | |

| 11/5/2020 | Edit Profile > **Deleting email** | It's possible to delete the existing email for a user profile (**Email can be a must condition for an account**). | **Verify** | | | | |
| --- | --- | --- | --- | --- | --- | --- | --- |
| 11/5/2020 | Edit Profile > **Changing email with an existing email** | System performs the email change with an already registered email, which should not happen. | **Fail** | | | | |
| 11/5/2020 | Edit Profile > **Changing First/Last names with invalid chars** | It's possible to change first and last names with invalid chars (!? etc) and spaces. | **Fail** | | | | |
| 11/5/2020 | Edit Profile > Chnage Password > **Remaining Warning messages** | Warning messages may not disappear when clicked cleared out the faulty fields and clicked Save Changes button (Had a *mismatching passwrods* warning, deleted all the fields, clicked the Sve Chnages button, but the mismatch warning still remains.) | **Fail** | | | | |
| 12/5/2020 | Download Data | Users can download data without register and login, which conflicts with its use case requirement. | **Fail** | | | | |
| 14/5/2020 | Clicking embedded functionalities in the plot | On double-more times clicking the inner fucntionalities like zoom in/out etc, text at the bottom (Copyright etc..) is highlighted unexpectedly, as if we clicked onto the copyright text. | **Fail** | | | | |
